Respectfully, An Open Letter To The U S Patent Office Personnel:

When I was a child, reading books about Tesla and Edison, I became absolutely fascinated by the US Patent Office, never dreaming that I would one day request a Patent myself. I feel you are certainly unsung heroes, without the recognition you so aptly deserve. Without the work you people do, great disorder would reign in the business world and creative endeavors would fall on their tail.

All Americans should be grateful to the men and women of the United States Patent Office. Thank You!

The invention offered here, for patent protection, is of necessity for many people afflicted with a horrible illness called (Shingles), one of the most painful illnesses that can occur. According to American Family Physician 500,000 to 1 million will develop this disease each year, and the pain is so severe and there has been no effective remedy, but our creation "Pearl Blue" does greatly reduce the suffering, I know, I had Shingles and developed this formula for relief. We wish to protect Pearl Blue from those who would alter the formula seeking only profit and destroy its effectiveness. If not for your office, this would not be possible. If there is any additional information needed please contact us and we will respond immediately.

As stated above, we express our gratitude for the wonderful work you folks perform.
